

Invitation

GDPR one year on – data privacy and security: where are we?

The European Committee for Interoperable Systems (ECIS) invites you to its next lunchtime briefing on data protection and security in the cloud. One year after the implementation of the General Data Protection Regulation ("GDPR"), some of the provisions are still hotly debated. Which are the requirements which are important in the cloud context and how are leading cloud providers addressing these? Have some of the mechanisms of the GDPR to increase data privacy levels failed to deliver on all their promises? Which requirements have DPAs focused their enforcement actions on so far? And looking to the future, what are the emerging privacy trends and challenges?

Our ECIS event brings together academic research, civil society and regulators.

When?

Wednesday 5th June, 2019
12:00 to 14:00
Networking lunch

Where?

Clifford Chance LLP
Avenue Louise 65, 7th floor
1050 Brussels
